## General Information

### Short summary

Slovak engineering company offers its customized production (products and spare parts, weld steel construction, machining and welding of rustless products, etc.) as subcontracting to companies in EU countries.

### Full description

Slovak company has been operating in engineering production for more than 20 years. The production was aimed for the manufacturing of agriculture machinery and accessories. Basic production range of company is now composed of production:

- air-slide, movements for transport of crisp material for cement and lime stone industry, parts for bagging and packing machinery for cement and food industry
- hydraulic flange and parts for highway and building machines
- spare parts for agricultural equipment and small tractors, service of small tractors
- another engineering products and spare parts
- weld steel constructions
- machining and welding of rustless products.

Technical production possibilities of company:

- Pre-production stage: technical preparation of production and design, CAD system

- Material preparation: glass grit blasting for stainless steel materials, steel ball blasting
- Material cutting: sawing, shearing, plasma burning
- Bulk forming: bending, rounding, edging, pressing, straightening
- Welding of common and stainless steels: in protective atmosphere CO<sub>2</sub>, by electrode, TIG-WIG
- Chip machining: conventional and CNC turning, milling on CNC machining centres, drilling, boring on horizontals, grinding, broaching
- Production of gearing by decoiling: spur, chain
- Surface treatment: spray coating
- Assembly: assembly of subassemblies, groups, gears

The company has been already experienced in cooperation with companies in EU as well as in Great Britain. The SME is looking for partners in EU countries and offers its subcontracting based on outsourcing agreement.

#### Advantages and innovations

This stable company has many years of experience in engineering production and cooperation with foreign partners.

#### Technical specification or expertise sought

#### Stage of development

**Already on the market**

#### Sustainable Development goals

**• Goal 17: Partnerships to achieve the Goal**

#### IPR Status

#### IPR Notes

## Partner Sought

#### Expected role of the partner

The company is looking for partners mainly in engineering industry with need of subcontracting.

## Type of partnership

**Outsourcing agreement**

## Type and size of the partner

- **SME 11-49**
- **SME <=10**
- **Big company**
- **SME 50 - 249**

## Dissemination

## Technology keywords

- **02002011 - Machining, fine (grinding, lapping)**
- **02002008 - Jointing (soldering, welding, sticking)**
- **02002010 - Machining (turning, drilling, moulding, planing, cutting)**
- **02002009 - Machine Tools**

## Targeted countries

- **World**

## Market keywords

- **08001012 - Speciality metals (including processes for working with metals)**

## Sector groups involved
