General Information

Short summary

A UK and European focussed technology company seeking a contract manufacturer in Europe for its sustainable materials

Full description

A UK and European focussed materials technology company developing high-performance materials designed to replace conventional plastics in packaging and consumer product applications is seeking a Good Manufacturing Practice (GMP)-compliant contract manufacturing organisation (CMO) to support commercial-scale production of proprietary bio-based resin formulations. Required capabilities include handling food-grade raw materials, aqueous formulation, mixing, process scale-up, quality-controlled manufacturing, and bulk packaging of liquid resin products. The ideal partner will have experience manufacturing materials intended for food-contact applications and operating under recognised GMP and quality management systems. The collaboration is expected to include technology transfer, commercial-scale manufacturing, and a long-term supply agreement. Annual demand is expected to grow from approximately 100s tonnes per annum in the initial phase to over 5,000 tonnes per annum as commercial adoption expands.

Specifically seeking partners in Northern Europe, Eastern Europe and Nordics, but interested in talking to partners anywhere across Europe

Advantages and innovations

Technical specification or expertise sought

Required capabilities include handling food-grade raw materials, aqueous formulation, mixing, process scale-up, quality-controlled manufacturing, and bulk packaging of liquid resin products.

The ideal partner will have experience manufacturing materials intended for food-contact applications and operating under recognised GMP and quality management systems.

Stage of development

Already on the market

Sustainable Development goals

• **Goal 12: Responsible Consumption and Production**

IPR Status

IPR granted

IPR Notes

Partner Sought

Expected role of the partner

The contract manufacturing partner would be handling the process from raw material procurement, production, QC and shipping.

Type of partnership

Supplier agreement

Type and size of the partner

- **SME 50 - 249**
