## General Information

### Short summary

A Ukrainian company is engaged in the manufacture of metal products and metal structures. The company employees are highly qualified and experienced welders/assemblers with many years of experience. The company can take on outsourced orders for the manufacture of metal products. Cooperation on the basis of a manufacturing agreement is sought.

### Full description

The Ukrainian company has been established in 1997 and since then has years of international and domestic work experience. The company manufactures and installs all types, of various complexity and dimensions, standard and non-standard, of metal structures for the industrial and civil construction sectors. Metal structures and their elements are interconnected according to the joints prepared by the designer-technologists and the approved descriptions of welding procedures. By investing in highly qualified personnel and equipment, the company produces metal structures that meet the highest quality requirements.

The main types of certified products:

- Farms of various function from high-quality hire;
- Columns from high-quality hire and pipes;
- Canopies for gas stations, various buildings;

- Metal structures of hangars and warehouses;
- Metal external lighting supports (various sizes), including with a lightning rod;
- Bicycle parking;
- Billboards;
- Fences;
- Stairs;
- Road fencing;
- Construction metal structures.

The company is looking for partners for a manufacturing agreement. The Ukrainian SME offers affordable and cost-effective production of flexible volumes – from one piece to mid-range series (thousands of pieces) of metal fences, billboards and other metal structures. The company can also offer customized products, assembling, testing to packaging and shipment to required destination.

#### Advantages and innovations

- The company offers affordable and cost-effective production of flexible volumes – from one piece to large-range series of products.
- The company has professional workers with wide experience in the field of engineering industry. Important competitive advantages are also employees with more than 20 years of experience in the assembly of steel construction as well as many successful national projects in this field of work.
- Competitive prices and fast delivery.
