## General Information

### Short summary

The innovative Austrian company produces mobile presentation displays for the food presentation market. These presentation display have metal shelves, whereby the powder coating of these shelves must be compatible with foodstuffs. The Austrian company would like to outsource the production of these metal shelves to Poland. They are looking for metal processing companies that can process powder-coated sheet metal and chrome-plate steel tubes for the food sector.

### Full description

The Austrian company has many years of experience in sales and product presentation. They develop POS for the presentation of fruit and vegetables that are efficient, quick and easy to handle and also appeal emotionally to the end consumer. Grocery shops that use the product displays from the Austrian company have found that products are sold faster, sales increase and at the same time employees are relieved by the simple handling and they save time.

These mobile presentation displays are flexible and adapt perfectly to the needs of grocery shops. These food displays have multifunctional metal shelves and offer various shelf spaces for the presentation of fruit, vegetables, flowers or herbs.

Due to the current order situation, the innovative Austrian company is looking for producers in the sheet metal processing industry to produce these metal shelves. These shelves come into contact with food, so it is essential that the powder coating is food-approved. Steel tubes must also be chrome plated. The metal construction companies are sought exclusively in Poland.

#### Advantages and innovations

The great advantage for Polish metalworking companies is that the Austrian company is already active in Poland and has many customers in Poland.

#### Technical specification or expertise sought

Sheet metal shelves are to be produced with a powder coating, which must be compatible with foodstuffs. Furthermore, these metal shelves must be able to bear a load of 10-20 kg. The partner we are looking for must be able to chrome plate steel tubes.

#### Stage of development

#### Sustainable Development goals

- **Goal 12: Responsible Consumption and Production**
- **Goal 17: Partnerships to achieve the Goal**

#### IPR Status

#### IPR Notes

## Partner Sought

#### Expected role of the partner

We are looking for metal processing companies exclusively in Poland as outsourcing partners. They must be able to form and powder-coat sheet metal and chrome-plate steel tubes. These processing technologies are necessary to produce shelves for the food trade.
