General Information

Short summary

Romanian company with over 20 years of experience in the civil engineering field is looking for long-term partnerships with companies that wish to outsource part of their production of metal structures and other fabricated metal components. They are interested in collaborations that can ensure a steady annual workload for their production facility.

Full description

The company is looking for long-term partnerships with companies that wish to outsource part of their production of metal structures and other fabricated metal components. They are interested in collaborations that can ensure a steady annual workload for their production facility.

We are flexible in executing projects according to our partners' requirements and open to receiving technical support when needed. Their goal is to establish stable, trust-based, and efficient collaborations

Advantages and innovations

- Experienced engineers and production staff specializing in metal constructions and fabrications.
- Production hall of 3,800 m² with a height of 11 meters, equipped with overhead cranes of 8.5t and 11t, plus an outdoor concrete platform of 6,000 m².
- Cutting and machining workshop, equipped with:
 - Oxy-fuel cutting machine (up to 80 mm) and plasma cutting machine (up to 20 mm)
 - Guillotine shear (up to 14 mm)
 - Press brake (up to 10 mm)
 - Band saw (max. D400 mm)
 - Plate rolling machine (3m x 30mm or 0.2m x 80mm)
 - Other metal working small machines.
- Assembly workshop, equipped with MIG-MAG welding machines.
- Textile workshop for dust filter bags.
- 25-ton mobile crane for outdoor assembly work, front loader, truck.

Partner Sought

Expected role of the partner

We are looking for a financially stable business partner who can sustain their orders. The ideal partner should be able to provide technical support when required and place substantial and consistent orders annually, ensuring a steady workload for our production capacity.

We seek a long-term collaboration based on mutual respect, professionalism, and transparent communication. Our objective is to establish a trustworthy and efficient partnership that benefits both parties, facilitating the seamless execution of projects.
