General Information

Short summary

A Swedish company is seeking manufacturers of construction screws for private label and OEM production. The products must be CE certified, compliant with applicable EN standards, and ready for direct sale on the European market. The company is looking for long-term cooperation with reliable manufacturers offering consistent quality, full technical documentation, and plastic retail packaging.

Full description

A Swedish company is seeking manufacturing partners capable of producing construction screws for the professional building market under private label and OEM agreements.

The product range primarily includes wood screws, decking screws, drywall screws, and chipboard screws, intended for structural, interior, and exterior applications. All products must be CE certified in accordance with the Construction Products Regulation (CPR – EU No. 305/2011) and compliant with relevant harmonised standards, including but not limited to:

- EN 14592 – Timber fasteners
- EN 14566 – Mechanical fasteners for gypsum plasterboard systems

The screws must be delivered with:

- valid Declaration of Performance (DoP),
- complete technical documentation,
- and be ready for immediate sale on the EU market without additional certification steps.

A must-have requirement is a standard assortment of commonly used construction screws supplied in plastic retail packaging, as this is the preferred packaging format in the building materials market.

A nice-to-have is the ability to supply collated (banded) drywall screws and chipboard screws packed in cartons of approx. 1,000 pcs, compatible with standard automatic screwdrivers and systems.

The following items represent a reference assortment of products of interest:

- Wood screw C4 – 5.0 × 80 mm, TX
General-purpose use, suitable for indoor and outdoor applications
- Wood screw C4 – 5.0 × 100 mm, TX
Heavy-duty installations, framing and structural work
- Decking screw C4 – 4.2 × 55 mm, TX
High-volume standard product ("core product")
- Decking screw C4 – 4.8 × 75 mm, TX
For railing posts and heavy decking structures
- Drywall screw (wood) – 3.5 × 25 mm, PH2
Loose packed, first layer of gypsum board
- Drywall screw (wood) – 3.5 × 39 mm, PH2
Loose packed, second layer of gypsum board
- Chipboard screw (wood) – 4.2 × 30 mm, TX / PH2
Loose packed, standard application for floors and walls

Advantages and innovations

- Clear focus on CE-certified, EU-ready products
- Market-driven standard assortment aligned with construction industry demand
- Emphasis on plastic retail packaging for direct sale
- Opportunity for extended cooperation including collated screw systems
- Long-term orientation with scalable product portfolio development

Technical specification or expertise sought

The company is seeking manufacturing partners capable of producing construction screws under private label and OEM agreements, fully compliant with EU regulations.

The partner is expected to:

- manufacture construction screws for wood, drywall, decking, and chipboard applications;
- supply CE-certified products compliant with CPR and relevant EN standards;
- provide Declaration of Performance (DoP) and full technical documentation;
- ensure consistent quality and stable production;
- offer plastic retail packaging as standard;
- optionally supply collated screw systems compatible with common industry tools;
- provide flexibility regarding MOQ, production capacity, and lead times;
- support long-term, export-oriented cooperation.

Partner Sought

Expected role of the partner

The company is seeking manufacturing partners capable of producing construction screws under private label and OEM agreements, fully compliant with EU regulations.

The partner is expected to provide:

- product catalogues and technical specifications;
- information on CE certification, EN standards, and quality systems;
- branding and packaging options;
- MOQ, production capacity, and delivery lead times;
- support for long-term cooperation based on a manufacturing and/or commercial agreement.
