## General Information

### Short summary

A Hungarian SME specialised in the design and production of custom-made steel structures offers its subcontracting services for industrial and infrastructure projects. The company manufactures and repairs large-scale machine elements, including equipment for the cement and lime industry. It is looking for international cooperation under subcontracting or outsourcing agreements.

### Full description

A Hungarian SME with over 20 years of experience provides complex services in the field of steel structure manufacturing. The company designs, fabricates, and assembles tailor-made industrial steel structures such as machine bases, platforms, support frames, pipe bridges, and cladding structures. It also manufactures and refurbishes large-scale machine components, including rotary kilns, dryers, hoppers, silos, and other heavy-duty equipment primarily but not exclusively for the cement and lime industries.

The SME operates a modern production facility equipped with CNC machines, welding stations, and assembly halls, enabling high-precision, medium-to-large size steel fabrication. The company is ISO 9001, 14001 and 45001 certified and adheres to EN 1090-2 EXC3 and ISO 3834-2 welding standards.

The company is offering its manufacturing and assembly capacity under subcontracting or outsourcing agreements

for international partners. It is looking for Engineering, Procurement, and Construction (EPC) contractors, engineering firms, system integrators, or industrial clients seeking reliable partners for steel structure supply and on-site installation.

The SME has extensive experience in international cooperation, having completed projects in Germany, Bosnia and Herzegovina, and even outside Europe.

---

#### Advantages and innovations

- Over 20 years of industrial experience in steel structure manufacturing
  - High production capacity: modern plant, CNC-machining and welding capabilities
  - Certified according to ISO 9001, 14001, 45001 and EN 1090-2 EXC3
  - Turnkey service: design, production, surface treatment, transport, and on-site assembly
  - International references from major industrial and infrastructure projects.
- 

#### Technical specification or expertise sought

## Partner Sought

---

#### Expected role of the partner

The company is looking for industrial partners such as:

- EPC contractors or general contractors requiring subcontracted steel structure manufacturing
- Engineering or construction firms looking for reliable suppliers for custom steel elements
- Industrial end-users (e.g., energy, logistics, manufacturing) seeking long-term outsourcing partners
- Expected cooperation type: subcontracting or outsourcing agreement.

#### Type of partnership

**Commercial agreement**

**Outsourcing agreement**

#### Type and size of the partner

• **SME 50 - 249**

• **Big company**

• **SME 11-49**

• **Other**

## Dissemination

#### Technology keywords

#### Market keywords

- **08003007 - Other industrial equipment and machinery**
- **08003001 - Machine tools, other metal working equipment (excl. numeric control)**
- **08005 - Other Industrial Products (not elsewhere classified)**
- **08006001 - Process control and logistics**

#### Targeted countries

- **World**

#### Sector groups involved

- **Construction**
