General Information

Short summary

An expert in Building Information Modeling (BIM) and Virtual Design and Construction (VDC) technologies, we specialize in architecture, design, construction consulting, and software development for efficient construction process management. With over a decade of experience, a team of 150+ specialists, and 200+ successful projects worldwide, we deliver innovative solutions to optimize construction workflows, reduce costs, and ensure excellence in the AEC industry.

Full description

PLANIT Ukraine revolutionizes the AEC (Architectural, Engineering, and Construction) industry through advanced BIM (Building Information Modeling) and VDC (Virtual Design and Construction) technologies. Since 2012, we have successfully completed over 200 unique projects globally, enabling efficient construction of skyscrapers in New York and parks in California.

Our team of 150+ highly skilled professionals operates from offices in the USA, Ukraine, and Poland, providing expertise in architecture, design, construction consulting, and software development. Leveraging cutting-edge

technologies, we streamline construction workflows, reduce time and costs, and enhance project quality.

Our democratic team culture fosters collaboration and innovation, ensuring our professionals thrive and excel in delivering outstanding solutions. We are passionate about transforming the AEC industry, building lasting partnerships, and helping our clients achieve their goals with precision and creativity.

Advantages and innovations

At PLANIT Ukraine, innovation drives everything we do. Here's why we stand out in the AEC industry:

- **Cutting-Edge BIM and VDC Expertise:**

Our unique application of BIM/VDC technologies allows us to optimize construction processes, saving our clients significant time and resources while ensuring exceptional results.

- **Comprehensive Solutions:**

From architectural design to software development, we provide end-to-end services tailored to meet the complex demands of modern construction projects.

- **Proven Success Record:**

Over 200 projects globally, ranging from iconic skyscrapers in New York to transformative public spaces in California, showcase our capability and dedication.

- **Highly Skilled Team:**

Our 150+ experts combine extensive experience and a passion for innovation, delivering superior solutions in architecture, construction consulting, and process management.

- **Global Presence and Reach:**

With offices in the USA, Ukraine, and Poland, we ensure seamless collaboration and accessibility for clients worldwide.

- **Client-Centric Approach:**

We prioritize client satisfaction by providing tailored solutions, flexible project management, and unwavering commitment to excellence.

- **Innovation-Driven Culture:**

Our team thrives on continuous development, research, and the integration of emerging technologies like augmented reality to enhance virtual construction.

IPR Notes

Partner Sought

Expected role of the partner

We seek partners who value innovation, precision, and efficiency in the AEC industry. Ideal collaborators are forward-thinking construction firms, architects, and developers looking to optimize their workflows and reduce costs through cutting-edge BIM and VDC solutions. Together, we aim to revolutionize construction processes and achieve remarkable results.
