General Information

Short summary

We specialize in software for the travel and hospitality sector, streamlining operations, boosting sales, and enhancing decision-making with data-driven insights. 300+ professional engineers, 90% of projects via recommendations (4.9 Clutch rating), 5+ average employee loyalty, 95% client retention, 50+ long-term partners across Scandinavia, the UK, and the US. Proud partners of Umbraco, Optimizely, and Microsoft.

Full description

UKAD delivers end-to-end software solutions for the travel and hospitality industry, helping hotels, travel agencies, and tour operators streamline operations, increase efficiency, and improve guest experiences.

Our services include:
• Property Management Systems (PMS): centralize reservations, front desk operations, billing, housekeeping, and reporting. Integrate with booking channels to prevent overbookings, manage guest profiles, and gain insights into occupancy and revenue trends.
• Custom Booking & Reservation Systems: tailored booking platforms with dynamic pricing, real-time availability, automated confirmations, and marketing support to enhance guest service and loyalty.
• Mobile App Development: engage guests directly via apps for bookings, trip planning, personalized offers, and

notifications. Apps integrate with CRM and booking management systems to boost operational efficiency.
• Data Analytics: unlock insights into customer behavior, seasonal trends, and preferences to personalize marketing campaigns and optimize offerings.
• AI-Powered Solutions: automate management processes, enhance guest services, and leverage real-time data for smarter decision-making with AI integration into existing or new systems.
• Updates & Enhancements: continuous support, maintenance, and upgrades ensure systems remain effective, secure, and aligned with evolving customer expectations.

Advantages and innovations

Why choose UKAD:
• Skilled Developers Onboard: access experts with the right skills and cultural fit. Start delivery in just 14 days with a single developer or a full team.
• Technical Excellence: 18 years of experience delivering cutting-edge travel and hospitality solutions. Expertise in PMS, booking systems, mobile apps, AI, and analytics ensures maximum project value.
• Flexible Engagement: scale your team up or down based on project demands. Long-term partnerships thrive through agile adaptation to client needs.

Additional Services:
• Business Analysis: identify opportunities, validate concepts, and design features that differentiate your solutions.
• Certified .NET Developers: expert implementation of complex features, infrastructure, and technology integrations.
• Data Engineering & Big Data: real-time data management, predictive modeling, and customer personalization via scalable pipelines.
• UX/UI Design: professional design for web and mobile platforms to enhance brand identity, user engagement, and customer retention.

Partner Sought

Expected role of the partner

We collaborate with travel agencies, hotels, and tour operators across the Nordics, Europe, and the US to deliver custom software solutions. Partners provide operational expertise and business requirements, while UKAD develops scalable, data-driven, and AI-enhanced platforms to streamline operations, improve guest experiences, and drive growth.

Type of partnership	Type and size of the partner
Commercial agreement	• **SME <=10**
Outsourcing agreement	• **SME 11-49**
	• **Big company**
	• **Other**
	• **SME 50 - 249**
