General Information

Short summary

A French company specializing in the design, manufacturing, and installation of aluminum structures and façades is looking for an Italian supplier of aluminum and metal profiles. These profiles will be used to manufacture frames and curtain walls. They must comply with European and French standards to ensure full compatibility with the French market's technical and regulatory requirements.

Full description

Established in 1990, the French company provides functional and aesthetic solutions for businesses, local authorities, architects, and private customers. Combining traditional craftsmanship with modern innovation, the company ensures high-quality execution with digital machining tools that enhance precision and efficiency. It is also committed to an eco-responsible approach by optimizing production to minimize waste and recycling unavoidable metal offcuts.

As part of its expansion, the company seeks an Italian supplier of aluminum and metal profiles suitable for manufacturing frames and curtain walls. These profiles must meet European standards and French DTU regulations to ensure high-quality and regulation-compliant constructions.

- Supply of aluminum/metal profiles for frames and curtain walls
- Compliance with European standards and French DTU
- Ability to meet the company's specific technical requirements

Advantages and innovations

- Expertise in aluminum structure design and installation since 1990
- Strong commitment to eco-friendly practices and waste reduction

Technical specification or expertise sought
