## General Information

### Short summary

Founded in 2002, with offices in 4 countries and 250+ professionals, we deliver advanced digital solutions for global businesses. We specialize in data management, web & mobile systems, and cloud migration. Recognized for legacy modernization, we ensure IT infrastructure is secure, reliable, automated, optimized, and cost-effective. With 20+ established practices, we are a trusted partner for businesses seeking innovation and growth.

### Full description

We provide customers with optimal digital solutions to achieve business goals and maintain a technological edge. With over 20 established practices, our services span across application development, data management, and modernization of legacy systems into modern cloud architecture.

#### App Development Expertise:

- **Connected Devices (IoT):** building apps that integrate IoT devices to improve lives, from smart homes to elder care solutions.
- **Healthcare:** developing apps and wearables for tracking health data, enhancing communication between patients

and doctors, and driving healthier lifestyles.

- AR / VR / AI: creating immersive augmented and virtual reality experiences with AI integration for entertainment, education, and beyond.
- Video & Image Processing: leveraging AI-powered algorithms to deliver powerful in-app image and video enhancements.
- Cloud-empowered Apps: delivering seamless, scalable apps accessible from anywhere with cloud integration.
- Social & Chat Solutions: enhancing engagement with AI chatbots, support features, and social integration across major platforms.
- UX/UI Design: crafting user-centered, intuitive, and elegant designs that drive adoption and engagement.
- Uber-like On-demand Apps: providing cost-effective, scalable solutions for industries adopting on-demand service models.

Our holistic approach ensures that every project benefits from modern technologies and robust engineering practices, delivering solutions that scale and evolve with client needs.

---

### Advantages and innovations

At the core of our innovation lies deep expertise in modern technologies and partnerships with leading global providers.

#### Technologies we master:

- Programming & App Dev: Kotlin, Swift, .NET, Node.js, Angular.
- Databases & Data Management: Microsoft SQL Server, mongoDB.
- Cloud Platforms: AWS, Azure, Google Cloud Platform.

#### Key Competencies:

- SQL Server optimization and modernization.
- Migration of enterprise databases to the cloud.
- Development of scalable, data-driven applications.
- AI-powered solutions in healthcare, AR/VR, IoT, and multimedia processing.

#### Partnerships with industry leaders:

- Amazon
- Google Cloud
- Microsoft
- Ellucian

Our innovation lies not only in technologies but also in methodologies—ensuring secure, reliable, automated, and cost-effective IT infrastructures. With proven expertise in digital transformation, we build scalable solutions that empower clients to innovate faster and operate smarter.

### Technical specification or expertise sought

### Stage of development

**Already on the market**

### IPR Status

**No IPR applied**

### IPR Notes

### Sustainable Development goals

- **Goal 17: Partnerships to achieve the Goal**
- **Goal 9: Industry, Innovation and Infrastructure**

## Partner Sought

### Expected role of the partner

We seek partners interested in advancing digital transformation through cloud migration, data-driven modernization, and innovative mobile/web applications. Our expertise is valuable for industries such as healthcare, education, IoT, retail, and enterprise solutions. We aim to collaborate with technology providers, integrators, and industry leaders to co-create scalable, secure, and future-ready digital solutions.

### Type of partnership

**Commercial agreement**

**Outsourcing agreement**

### Type and size of the partner

- **SME <=10**
- **SME 11-49**
- **SME 50 - 249**
- **Big company**
- **Other**

## Dissemination

### Technology keywords

- **01004001 - Applications for Health**
- **01003010 - Databases, Database Management, Data Mining**
- **01003003 - Artificial Intelligence (AI)**
- **01003024 - Cloud Technologies**
- **01003006 - Computer Software**

### Targeted countries
