General Information

Short summary

A cutting-edge software development company specializing in web, mobile, and cloud-based applications, delivering high-performance solutions with a focus on scalability, security, and innovation. We have successfully completed 100+ WordPress/WooCommerce projects, 70+ Shopify implementations, 30+ Drupal projects, and 15+ Python/Ruby on Rails solutions. Our expertise spans various industries, empowering businesses with reliable and scalable technology.

Full description

We are a technology-driven software development company providing high-quality digital solutions tailored to our clients' needs. Our team excels in delivering scalable, secure, and high-performance applications across industries such as e-commerce, finance, healthcare, and education.

Our Services:

- Web Development (Server-Side):
- PHP: Symfony, Laravel, Yii, Zend, and other popular frameworks.

- Node.js: Express.js, Hapi.js, Socket.io, Meteor, Mojito, Sail.js, and more.
- .NET: Full-time dedicated teams for robust applications.
- Perl: Specialized team dedicated to long-term projects.
- Databases: MySQL, PostgreSQL, MongoDB, SQLite, MS SQL, NoSQL.

JavaScript & Front-End Development:

All server-side developers are proficient in front-end technologies, enabling seamless single-page applications.

- Frameworks: Angular, React, Backbone, JQuery, D3, and more.
- HTML/CSS: Our dedicated HTML slicing team enhances frontend speed and reduces costs.
- Bootstrap, SASS, LESS, 960 Grid, Blueprint, Material, Semantic UI, Sencha Touch.

Cloud & Server Administration:

- Cloud-based services setup and optimization: AWS, Azure, Rackspace Cloud
- VPN, DNS, DHCP, Mail server setup.
- Infrastructure optimization for scalable performance.

E-Commerce & CMS Development:

Magento: Deep expertise in customizations and third-party integrations.

WordPress/WooCommerce, Shopify, Drupal: Extensive experience with 200+ projects delivered successfully.

Software Testing:

Black/White Box Testing, Automated and Manual Testing, A/B Testing for quality assurance.

UI/UX & Product Design:

Experienced designers offering intuitive and engaging user experiences.

Other Technologies & Custom Solutions:

Besides mainstream technologies, we also work with NetLinx, TP4, TP5, TVML, AMX, Crestron, Apple TV, Roku Player, and other specialized devices.

With expertise in automation, AI-driven analytics, and cloud-native architecture, we deliver future-proof software solutions that drive business success.

Advantages and innovations

At the core of our success is a commitment to cutting-edge technology, agile methodologies, and client-centric solutions.

Scalability & Performance: Our solutions are optimized for high-load environments, ensuring seamless performance as businesses grow.

Security-First Approach: We implement industry-leading security measures, including encryption, authentication, and compliance-driven protocols to safeguard data.

Modern Tech Stack: Leveraging React, Node.js, Python, and cloud-native architectures to build fast, scalable, and future-proof applications.

AI & Automation: Integrating AI-driven analytics and automation tools to streamline workflows, enhance user experiences, and improve decision-making.

Agile Development: With fast iteration cycles, continuous integration, and transparent collaboration, we deliver high-quality solutions on time and within budget.

End-to-End Support: From concept to deployment and beyond, we offer full-cycle development, maintenance, and ongoing support to ensure long-term success.

Our innovative approach transforms businesses, driving efficiency and competitive advantage.

Partner Sought

Expected role of the partner

We seek long-term partnerships with businesses looking for reliable software development expertise. Our ideal partners include startups, enterprises, and digital agencies needing custom software, cloud solutions, or digital transformation. We provide technical leadership, project development, and consulting to help partners achieve their technological goals efficiently.
